Welcome Chilocco Students

JIMMY BAKER TRANSFERS TO WASHINGTON, D.C.

There comes a time when one must make a major decision that affects one's life in his present occupation. I have made one which affects mine. That is, I have given up my position as Superintendent of Chilocco after five years and eight months.

The first question I am asked is why? I realize others ask and write, but in my own writing, I have decided that completing my doctoral dissertation is a personal and professional aspiration that outweighs any consequence which might affect my personal status. I was prepared to resign, if it came to that, as this is my final year to complete this work.

In looking back, I feel I could not have made this decision if my allotted years for the doctorate came sooner than 1980. Now, with the enrollment looking better, various programs solidifying, it was a lot easier to make this decision.

My status was rewarded with approval to grant me time to do this work. At the time, with continued improvement in enrollment still needed, the decision was to reassign me elsewhere so Chilocco could have a permanent Superintendent, as quickly as possible to continue where I left off in the improvement plans.

In leaving, all I ask is your continued dedication, as staff and students, and to carry your responsibilities and burdens in the overall effort to design the kinds of needed programs for the students of today and the future. I also ask for your total support of Mr. C. O. Tillman, and to work with him in making him the kind of leader it takes to keep this school a school for all Indian student needs.

Contrary to currently formed beliefs or quotes (mis-quotes), the door is not closed for my possible return. However, we should not be concerned with this issue as it may be realized I was never the right person for Chilocco in the first place. No matter what the future holds in store on this matter, I will never turn my back on the school, and will always be the first to help and fight for you and the school. My position is now with Task Force No. 3 in Washington, D. C., where I will be on leave from, to do my research and task force functions. It is a short distance to Penn State University. At the end of my work I plan to return to this locality.

EDITORAL

By Patti HeCrow

I would like to welcome back the many old familiar faces and especially the new ones, and hope that you will stay with us all year.

We are looking forward to a good year, here at Chilocco. I have noticed that the enrollment has been increasing as each day goes by, and I am very happy to see that many of you have chosen Chilocco to continue your education. I would like to influence you new students and also the old students to get involved with many activities and sports that will be going on throughout the year.

There will be some homesickness, but hang in there and you'll get over it before long. Sure you'll have your up's and down's but like I said hang in there, get to know one another and you'll be glad you stayed and finished school.

Chilocco is the place to get your education for it is here we can learn responsibilities to oneself and to others, your opportunities in going out into the world are greatly increased if you only take advantage of them.

I would also like to welcome back the teachers and staff for they to are also a part of your educational process.

Welcome to Chilocco! And be apart of things.

LEO: Typical Leos are ambitious, generous, sometimes egotistical, and like to be their own boss. You want to be proud of your work, your family, your life! Praise and rewards motivate you to do better and better; nagging turns you off. You have flair and grace and are warmhearted friend. Don't be too proud or fall for flattery. Your determination and courage are the keys to your kingdom!

A budget (that you stick to!) should save you a bundle, do plan ahead. Favorite possessions need guarding; they could get lost. Start anything new, and a few lucky breaks should come your way! Romance is on the back burner. Optimism is contagous!

VIRGO (Aug. 22-Sept. 22): Virgos are supposed to be neat, tidy, and good at organizing—and most of you are! You probably have a green thumb, and love pets. Your attention to detail is a great asset. You may appear shy and reserved, but those close to you know that you can always be depened on for help. Build up your self-confidence and stand tall and proud.

LIBRA (Sept. 23-Oct. 22): A rather introspective time's ahead, good for planning, meditating. Somebody who's ill or lonely might like to see you. At school and work you need extra tact—boss and teachers might be short-tempered! Friends make up for hassles!

SCORPIO (Oct. 23-Nov. 22): Physical and mental energy levels should be high to start the school year. Lucky opportunities are coming your way. Keep your eyes and ears open. Guard your temper, especially with important people. This is a time for discipline, not for emotional self-indulgence!

SAGITTARIUS (Nov. 23-Dec. 20): Down in the dumps? Avoid draggy folks, and go to see a funny movie. And keep up your exercise pace; your mind and body will thank you! Your lucky stars will provide a silver lining for every cloud.

CAPRICORN (Dec. 21-Jan. 19): Avery productive month is ahead. You've probably figured out where you're heading in the near future. If not, you'll do it easily now. Be flexible, though; be willing to change directions if a great new chance comes your way.

AQUARIUS (Jan. 20-Feb. 18): You'll probably write Love with a capital L this month. Have a wonderful time! After your recent ups and mainly downs, the tide is now definitely turning in your favor. You've learned so much lately; teach a thing or two to those around you. Money could come as a windfall.

PISCES (Feb. 19-Mar. 20): It won't be a dull time! The one person closest to you figures prominently now. Study together, learn about one another, meet new people together. However, you need to pay special attention to school details, practical matters. Zero in on what's important.

ARIES (Mar. 21-April 20): Work's ahead now--be it school and/or a new job. It may look like a grind, but it will give you a super start! Make time for a medical checkup; health counts! Be patient with someone you love. At home, be the peacemaker.

TAURUS (April 21-May 20): Look forward to an interesting month. Your head's in the right place . Studying comes easily; you'll have enough time left to organize a party, join the choir. Anything creative gives you a high:repot your plants, write a peom. Taking care of kids is a joy. Romance is coming.

GEMINI (May 21-June 20): You may feel like goofing off with the gang. Better think about your new classes, organize your time and make your room a pleasant place to study and concnetrate. Pennies need watching; don't spend on credit!

CANCER (June 21-July 20): You're full of vitality and bright ideas. What you are learning now, from books and any other sources, will come in handy for the rest of your life, and add a new dimension to your personality. Friends change, but special ones stay.
